## It was great bossing my co-actors during 'Escaype Live' shoot, says Waluscha

an' fame Waluscha De Sousa is portraying a modern-age, career-oriented woman, Jia Bose, in "Escaype Live", which has been created and directed by Siddharth Kumar Tewary. The actress revealed that though the character was extremely opposite to her real self, she instantly connected to it and enjoyed doing it. "I was very happy to play Jia. When the series was narrated to me I instantly connected with her and I could see myself bringing her to life. A modern-

day, 21st-century strong woman, who is committed to her work, for her business is everything, she's able to put her emotions on the side, gives the job all that it requires, and knows exactly how to keep the empire going. It was really exciting to play the character.

"I am an introvert and Jia is just the opposite of who I am and it was thrilling. It was great bossing all my co-actors around on set while shooting. I must say that made my day and I took utmost pleasure in that. It was a great

journey with Jia, she said. The series revolves around the madness created by the social media world, and the actress feels that the story is very relevant in today's time. She says: "This web series is a social thriller and it is for the first time this space has been explored. I think it is the right time for a subject like this. "It holds more relevance in our lives now more than ever because the lockdown brought us together and I think everybody flocked to social media to stay connected and understand what's going on in the world.' The actress added that people unintentionally made a relationship with social media during

0

that time. "It became this deep-rooted relationship that we established with social media and therefore each and every one of us from different age groups is going to be able to relate to the series. We had kids on social media, we had young children getting online with their schools and with information that they needed to source from online portals, and we had the older generation on social platforms just to stay connected with people that they couldn't meet over a period of time.

"So everybody developed this relationship and this topic is more relevant now than it's ever been before and therefore something that every-body would

relate to,'
